PRACTICAL ISSUES ONCE INSIDE JRC:

WORKSHOP BUILDING:

The workshop will be held in the Amphitheater of the Building 36. This is just a short walk away from the reception desk, just follow the main road downhill until the roundabout, the building is right on the left. However, please consider that access into the JRC site will require registration, which might take a few minutes for each individual participant, while for people coming by bus from Hotel Europa we will arrange a quicker group check-in procedure.

CAFFEIN:

There will be a social lunch on the 11th (Thursday) of September in the Mensa Piccola, which is adjacent to the building where the workshop takes place. It is free of charge. On 12th (Friday) of September the participants may go for lunch to the JRC Canteen. They offer a variety of meals (including vegetarian) for a reasonable price (3-5 Euro).

ATM:

A bank and ATM are available at the first floor of the Reception building. Another ATM is available outside the JRC above the reception (you have to climb the stairs visible from the parking). You will find also one at the entrance of one of the two JRC canteens.
INTERNET CONNECTION:

Broadband wireless internet connection should be available in the workshop building. Please notice, though, that for security reasons any laptop introduced in JRC needs to be registered at the reception, which involves filling a form with the item’s serial number and so. Please take into account the additional registration time when planning your arrival at the Centre in time for the sessions.

Wireless connection is also available for guests at the reception lounge of the Hotel Europa.
